EXPERIENCE

Schoolitup
2011 - 2015

I worked on the front and backend, graphics, and databases. I also managed social media accounts, and worked on SEO management.
- Website Design Development
- Mobile Website Design
- Database Management
- SEO
- Email/User Support
- Social Media Management
- Website Management

Crumyum
2015

A website and (soon to be) mobile application involving food and recipes. I designed the front end of the site, created graphics, and worked on the mobile app.
- Website Design Development
- Mobile Website Design
- Database Management
- SEO
- Email/User Support
- Social Media Management
- Website Management
- Mobile App Development (iOS/Android)

FREELANCE

Kyasto Kicks
2014

Created a website for a fashion company based on a photoshop mockup they had provided me.
- Website Design & Development

VD4A
2015

I designed the landing page of the website using HTML & CSS, and modified a Wordpress theme for another section of the website.
- Website Design & Development

RMC Construction
2015

Website design and support for a local construction company. Aside from designing the site, I also provided client support via email & chat.
- Website Design & Development
- Website Management
- User Email Support

CREDENTIALS

Certification

Coding for Designers
Learn HTML and CSS, and become the Web Designer that Developers love. Professional design experience is a prerequisite, but no prior web or coding experience is necessary.
thegymnasium.com & accredible.com

Certification

Writing for Web & Mobile
Learn how to write compelling content through meaningful audience research and find the right words to attract and engage users.
thegymnasium.com & accredible.com
